A Victorian
Government
initiative

Victoria State Emergency Service
Recruiting volunteers now!

Who volunteers for SES?

SES volunteers come from all walks of life, all backgrounds and all professions. In fact, the main thing SES volunteers have in common is a desire to make a contribution within their community.

SES volunteers make themselves available for call-outs to emergencies, as and when required, depending on their individual skills.

They receive comprehensive training in emergency related activities, including the operation and maintenance of equipment with which they are provided.

SES volunteers perform across a broad range of tasks:

- Communications
- Administration
- Stores & equipment
- Training
- Public education
- Operations

SES benefits

Each and every Victorian benefits every time the SES responds to an emergency. The SES provides our state with emergency assistance that would be beyond our means if not for SES volunteers.

It is a proud matter of record that SES volunteers have saved the lives and property of countless Victorians.

However, SES volunteers themselves also benefit from their participation. Although they are unpaid, they have a wide range of opportunities to develop new skills, form new friendships, accept high levels of responsibility and enjoy the team spirit of a tightly knit unit.

SES activities

SES plays a vital role countering the effects of natural and man made emergencies. Some of the SES activities are:

- Flood
- Windstorms
- Earthquake
- Road Rescue
- Emergency Planning & Preparedness
- Search and Rescue
- Support and Relief Roles

Are you ready for action?

If you are over the age of 18 and have a desire to assist those within your community then you could be a potential volunteer member.

You can expect excitement, challenge and the reward of knowing that your contribution makes a real difference. You will need a sense of commitment to the community and commitment to your fellow SES volunteers.

If that's you, contact SES now. Telephone numbers and web address on rear page.

The SES volunteer network

The SES is made up of volunteers from the communities it serves. With approximately 5,500 volunteers supported by a team of qualified staff, the units operate from the six regions across the state. All of the 150 units are managed by a volunteer Unit Controller.
