

Flood Observation layer and Snap Send Solve Portal in EM-COP

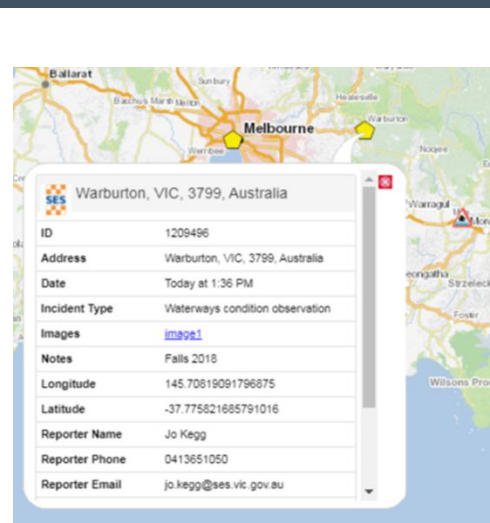

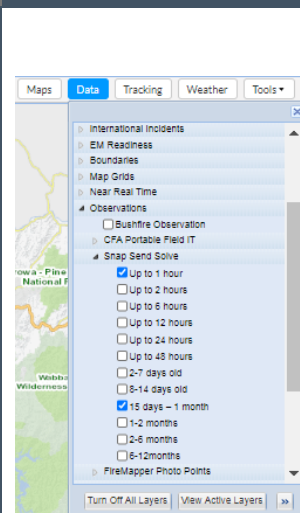

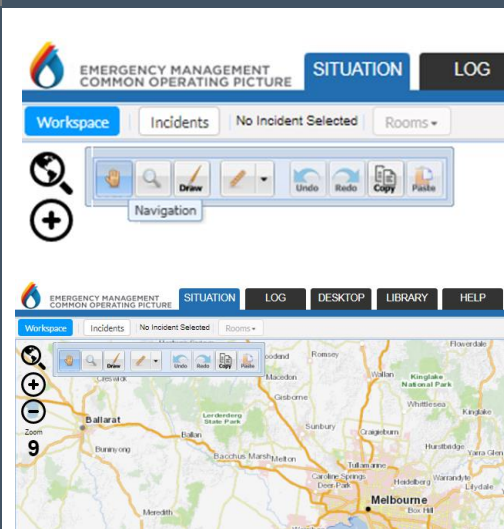

The following information guides you through how to access the Flood Observation layer in EM-COP and where to find the Snap Send Solve Portal within EM-COP. You will require user access to both platforms.

Access the Flood Observation layer in EM-COP

- Login to EM-COP
<https://cop.em.vic.gov.au/sadisplay/nicslogin.seam>
You will need to register if you do not have an account.
- Select the **Situation** tab
- Select the **Workspace** tab

Top right of screen:

- Select **Data > Observations > Snap Send Solve**
- Select **Turn Off All Layers** to display a screen with Flood Observation data only (if required)
- Select/deselect observation timeline filters to display icons on the map
- Click on an icon on the map to display a pop up. This shows all information provided by the Flood Observer
- Click on **image** to display the high resolution photo

Access the Snap Send Solve Portal in EM-COP

- Login to EM-COP
<https://cop.em.vic.gov.au/sadisplay/nicslogin.seam>
Access to the Portal will need to be discussed with your regions Snap Send Solve champion.
- Select **Desktop**
- Select **Sections**
- Select **Intel** or scroll to **Intelligence**
- Click on the **Snap Send Solve** logo to be redirected to their website
