National Quality Standards 1 – 7

Learning Outcomes 1 to 5

Lesson number: Lesson 3 of 5

Lesson overview

Prior Knowledge

Before starting this sequence, Children have experienced a visit from the local SES Unit. Children are given the opportunity to practice eye – hand coordination and to express themselves through creative play. The children learn about key safety steps to take before and during a storm event.

Lesson objectives

To encourage children to become confident to make safe decisions with an adult before and during a storm event.

For children to learn about emergency preparedness before a storm event.

For children to learn about how SES volunteers help the local community.

For children to become familiar and recognise the SES Rescue Truck looks like in case of a future flood / storm emergency.

or

Please contact your local SES member (Community Engagement Facilitator) who can assist you with this if needed.

Children may have had a range of experiences in the past with emergencies and may present memories of both positive or negative experiences.

Care should be taken to ensure that participation in the activity does not exacerbate or re-trigger -previous trauma.

This may include communicating with parents and providing children with an opportunity to privately talk to you if they have experienced a distressing event.

Children must be given the option to not participate in any activity that may cause discomfort or distress, and appropriate support should be available from the early childhood educator if needed.
